Green Thumb®

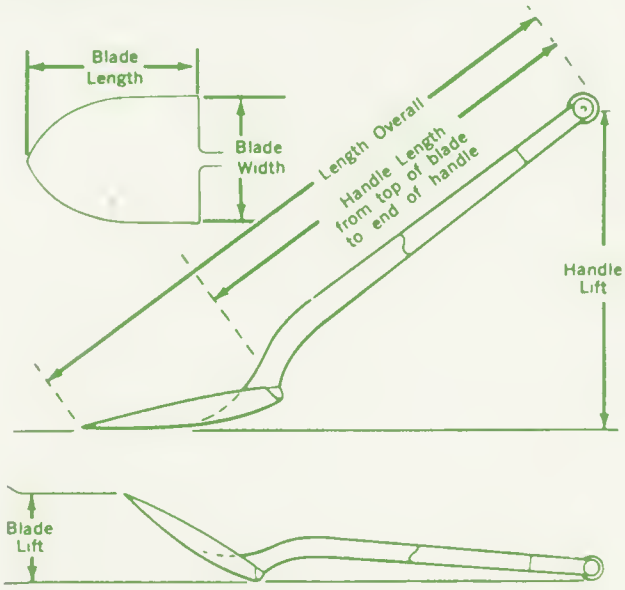
TOOLS FOR LAWN • GARDEN • FARM AND INDUSTRY

HOW TO MEASURE HANDLE LIFT, BLADE LIFT AND BLADE SIZE



LENGTH OVERALL – Measure from edge of blade to top of handle, as shown.

HANDLE LENGTH – In completed tools, measure from top of blade to end of handle, as shown.

HANDLE LIFT – Measure from center of spool in "D" handle or top of long handle to floor, when leading edge of blade is flat on the floor in shoveling position, as shown.

BLADE LIFT – Measure from floor or flat surface to tip of blade, as shown.

BLADE WIDTH – Measure from edge to edge of blade at a point 5½" below step edge, as shown.

BLADE LENGTH – Measure from point of blade to step edge at side of socket, as shown.

RAZOR-BACK

Razor-Back. Tough, Strong, Superior!

The Razor-Back Round Point has a super tough backbone from the top of the socket to the tip of the blade.

Extra long sockets strengthen blades at point of high stress.

Blades are heat treated for extra strength.

2	401765	CNR2UD	Razor-Back	Same as No. 2 above except NICKEL PLATED for Presentations & Ceremonial use.	4.2 lbs. each		16.00	21.33	32.00

NOTE: Fine Line Classification numbers for items shown on this page are FLC1321 Round Point Shovel, FLC1320 Square Point Shovel.

- Lightweight shovels — Reduces fatigue and effort
- Tab Socket — More wood in the socket for greater strength.

*Forward turned step makes shoveling easier on the feet

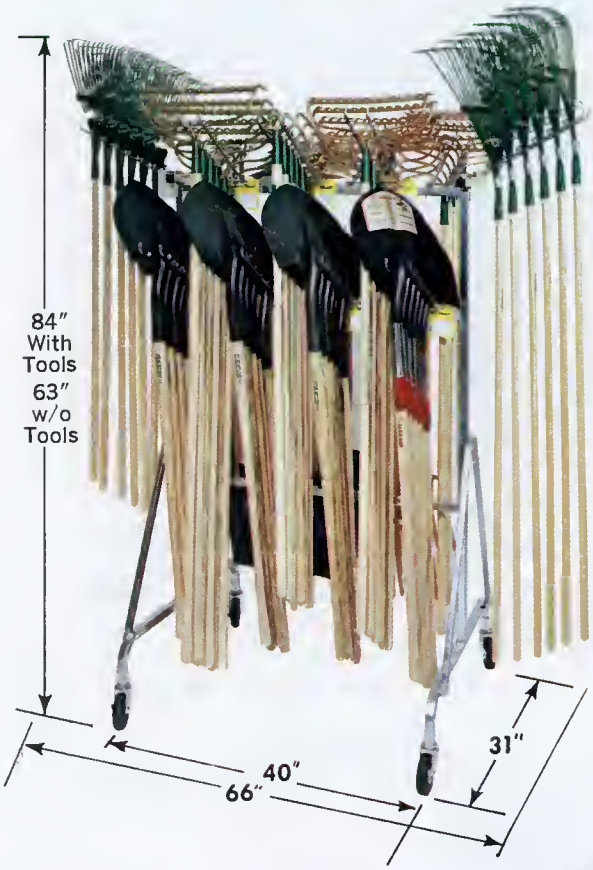
MERCHANDISERS

.....DESIGNED FOR MAXIMUM PROFIT — MINIMUM SPACE

1. *Green Thumb*® MOBILE GARDEN & SNOW TOOL DISPLAY

ORDER NO. 064939

NEW



TYPE GTM-16

This unique new C-Thru garden or snow tool display rack is usable year 'round. Large free-rolling casters permit easy movement throughout the store. Two locking casters keep the display where you want it. Weight is only 48 lbs. Finish is attractive, bright zinc chromate. Shipped knocked down, but it only takes 2 bolts for complete assembly. Will give years of excellent service. Shows tools—not the rack! Complete with 16 new style GTH-5B tool hangers designed to hold most lawn, farm, garden, and snow long or 'D' handle tools.

NOTE: Fine Line Classification number for all items shown on this page FLC 1302.

Exclusive Flex-Beam design stops handle breakage by centering maximum strength at point where other forks fail. A steel beam reinforces each Flex-Beam fork—"floats in the ferrule"—to give strength where strength is needed, yet retains complete flexibility for handling ease. Springy action makes it efficient in use—its superior strength means extra years of service.
